

Inspection Request Information

Building inspections for permitted work are currently available for the **Rolling Hills and Rolling Hills Estates** areas on Tuesday, Thursday, and Friday.

All inspection requests MUST be emailed (Manny.Rodriguez@willdan.com). Please provide the job address, permit number, the type of inspection, and the day which you are requesting. I will contact you for confirmation with day and a time-frame. Please allow some advance notification so I may coordinate with other projects and for the appropriate needs for both cities. **A request for next day inspection must be submitted before 3pm.**

Also, please be sure to have a printed copy, or digital copy, of the approved plans. Please have a printed copy of the permits & job card at the site. Field or working plans without plan-check approved stamps will not be accepted. No exceptions. Failure to have these will result in a failed inspection and possible reinspection fee.

I can be reached at (562) 727-1848, call or text, for general questions.

Thank you,

Manny Rodriguez
Building Inspector
